World Situation Calls for Awareness

There is no specific credible information to indicate that any terrorist groups are targeting U.S. interests within the 6th Area Support Group. Security officials expect reactions of local Serbs to NATO bombings in Yugoslavia to be mainly enthusiastic but peaceful demonstrations. However, isolated acts of violence and vandalism directed against U.S./NATO civilian or military personnel are likely.

Additionally, it is possible that there will be an increase in the number of short-notice demonstrations from the various groups - peace activists, Serbs, Kosovars, ethnic Kurds and Germans - sympathetic to the different causes. Military facilities throughout Germany could be affected by these activities. While generally peaceful, militant actions by individuals or small groups cannot be discounted. Therefore, community members are encouraged to maintain situational awareness at all times and avoid large crowds. Report all suspicious activity to the Military Police desk sergeant, 0711-680-5261. For more info call the Security Office, 0711-729-2735.

Selling A Car

Are you trying to sell your car? Be sure to take the proper actions by parking it in the proper lot. Overnight or 24-hour parking of privately-owned vehicles for sale will not be tolerated in public parking lots. If a "For Sale" POV is found to be parked after 11 p.m. in such an area and is known to have not been moved within the last 24 hours, the owner will be cited by the Military Police. Repeated citations may affect the owner's USAREUR driving and/or vehicle ownership privileges or result in even more serious measures. Call your installation coordinator for details.

No Changes to Current Firearms Policy

Recent articles in the local media have caused much confusion and misunderstanding regarding the status of privately-owned firearms registration policies. The United States and Germany are still in the process of negotiations to determine what changes, if any, will be required. Until these negotiations are concluded and the policies are modified, there will be no changes to existing procedures. For more information call the Provost Marshal Office, 0711-680-7254.

Beware of Computer Virus

A virus named Melissa, recently found in an Air Force computer system, saturated AF e-mail servers to the point of failure. If users see an e-mail with the subject of "Important message from <previous users name>," do not open the attachment and delete the message immediately. If it is opened, the virus will then distribute the message to all users in your address book. Go to www.iwsc.5sigcmd.army.mil for details.
